THE LOST BILL.

The Eureka Sentinel of March 1 contains an article headed "The Reclamation Fraud," and gives Senator Schooling's reasons for opposing the Marker bill. From a careful reading of the article we fail to find any good argument in Senator Schooling's reasons. The Sentinel says:

Mr. Schooling showed that the waters, which it is proposed in the bill to dam up and diffuse over the thirsty soil of Nevada, are nearly all held by private persons, who have acquired their rights from the State and the general government, and that it would be a monstrous thing for the State to come in and interfere with their rights in their vested rights, by going above them towards the water source, and by diverting water therefrom put in question the riparian rights of proprietors.

We do not believe Mr. Schooling showed anything of the kind. We do not believe that the thirsty soil of Nevada could possibly absorb the water now running to waste if it was properly utilized, or deprive our farmers of one single drop. If our waste water was saved, as intended by the Marker bill, the rights of ditch companies would be better protected than they are now, and their property made still more valuable, for it would have rendered it ever impossible for them to suffer for the want of it, let the season be ever so dry. The question of interfering with the riparian rights of anybody is just no argument at all. There is not a rancher in this county who does not know that there is water enough sunk in Pyramid Lake every year to water every square inch of territory in the county, if it could be stored and used when needed. Again:

He showed very conclusively that anything like the grand ranch scheme on the part of the State, as proposed by Mr. Marker, even if it could be equitably and decently put into practice, would be destructive to the present flourishing interests of the State.

"The present flourishing interests of the State" is good. Is our State so prosperous that her citizens are willing to sit down and not make an effort to become producers instead of consumers? Is our population large enough now to justify us in telling honest, well-to-do families, seeking a home on this coast, to pass on, that we want no such element as you offer us; we do not care to have you come here and build a home and beautify our desert lands; if you come you will interfere with our "riparian rights"—pass on? The Sentinel says further:

The products of the soil are now valuable, because the demand in the State is coextensive with the supply, or nearly so. Suppose the quantity of grain and hay in Nevada is materially increased, we would have to look to California for a market.

Whether the Sentinel intends the above paragraph as another one of Senator Schooling's reasons we do not know, but hope not, for we believe the gentleman to be better posted on Nevada's agricultural interests than to make any such argument. Nearly all of our ham, bacon, butter, eggs, flour, fruit and the greater part of the barley and oats consumed in the State, besides vegetables, for nine months in the year, come from California. In fact, the people of this State have been in the employ of California, figuratively speaking, ever since Nevada was first recognized by the Government authorities as an independent star in the galaxy of States. When our mines were producing millions, and that the only and paramount industry we had to lean upon, California, who reaped the benefits. Our mineral wealth was taken from under our feet and turned over to that State. Nevada contributed more to make San Francisco what she is to-day than anything else. Our money found its way into California's vaults. Men who came here and acquired a fortune took their money and removed to the California metropolis just the moment they believed Nevada contained nothing more for them to accumulate. Some of us, however, are obliged to live here; our interests are all here, our property is deprecating, and "hard times" is the cry from every quar-

ter of the State. We feel anxious to better our condition. We feel anxious to become a prosperous people. We would like to have capital assist us in developing our agricultural interests. We are anxious to increase our population with an element well stocked with brains and an honest purpose to assist in building homes, increase our taxable property and share with us the governmental burdens. Our soil produces the finest potatoes ever grown. California likes them and buys all we have to sell and wants more. We would like to see Nevada furnish that State with all she can dispose of. Elko county shipped 1,000 tons of barley last year to our sister State. We would like to see her do it every year. Humboldt county sent 500 tons of wheat to that State this Fall. It would be gratifying to know Humboldt was able to send them more than that amount every year. If we had more grass land we could sell more beef, and our home consumption would be greater. A good system of irrigating our wastes would bring about this gratifying result. There is nothing wrong in asking the State to lend its aid with that object in view. If it is wrong for the State to appropriate \$100,000 to assist in reclaiming desert land it is wrong to memorialize Congress to appropriate \$250,000 to bore artesian wells for the same purpose. If it was right for Senator Schooling to oppose the Marker bill he would have been excusable if he had opposed the joint memorial sent to Congress asking for Government aid. We believed the Marker bill one of the best measures ever introduced in our State Legislature, and think so still. We also think that two years hence such a law will be enacted, and we hope the Washoe delegation will stand as a unit the next opportunity they have to support a bill calculated to be of such material benefit to our agricultural interest. An intelligent farmer in Washoe Valley told us the other day that he could sell ten times the potatoes, eggs, chickens, butter, cheese, hogs, hay, beef, etc., produced in this State.

Grain Elevator Burned—Loss of Life and Serious Injuries.
 ALBANY, March 3.

At 2 o'clock this morning the watchman at Dunlap's elevator discovered fire in the sixth story. By the time it was extinguished three flames had broken out fiercely on the fourth floor, and several men were caught on the sixth floor. Gary Benson, watchman, and Louis J. Miller, clerk of the fire department, rushed down stairs through the flames and were badly burned. Firemen Samuel Atkins, John Myers and James Galligan were literally forced to come down an iron hoisting chain outside the building, a distance of 100 feet. About 40 feet from the ground the chain was covered with ice and the men slid to the ground with great velocity, and were more or less severely injured. A strong wind was blowing and the whole department was called out. The fire spread rapidly through the mill and elevator and enveloped the whole structure. About 4 o'clock to-day the upper walls fell outward, part falling through a store adjoining on Broadway, burying several persons under the ruins. Firemen W. Caslin and Michael Shelan and Michael McNess, an employee of Bridge & Davis, were killed. James Cameron, bookkeeper for the same firm, was injured internally, probably fatally; James Kelly had both legs crushed; fireman Goldwaite had his back injured.

A Catholic Priest Humbugged by a Millionaire.
 WASHINGTON, March 2.

Rev. Dr. Chapelle says he had been known or suspected that Senator Tabor or Mrs. Lizzie McCourt had gone through the divorce courts he would not have officiated at their marriage. He made what he thought a careful investigation, and if the statement concerning the divorce is correct, he avers that he was misinformed by the parties concerned. The Catholic Church does not allow the clergy to solemnize marriages when either party has been divorced.

OSHKOSH, Wis., March 2.
 Mrs. McCourt-Doe, who was married to Senator Tabor of Colorado, is an Oshkosh lady. She is the daughter of Peter McCourt, a merchant tailor. About six years since she married the son of Hon. William H. Doe, then of Oshkosh, now of Colorado. Being a Catholic, the relatives of the bridegroom objected to the marriage. W. H. Doe at one time having been a Methodist minister, but the young man determined to marry the girl of his choice, and was baptized in the Catholic church. The marriage shortly after followed. After the marriage the young couple went to Colorado,

where Doe went into the mining business with his father. For a short time all went well, but the wife became tired of him and applied for a divorce which was granted. Since then she has been visiting her relatives in Oshkosh.

Burglars Make a Good Haul.

SPRINGFIELD, Ill., March 3.
 Early this morning burglars opened the safe of J. C. Kaholts, jeweler and watchmaker, and stole \$18,000 to \$20,000 worth of goods. A large portion of the property was diamonds and jewelry, together with 400 watches, of which 250 were left there for repair. The burglars first entered R. T. Tuttle's hardware store and secured a dozen revolvers and tools to break Kaholts' safe. Private watchman Shultz says the robbers bound and gagged him and threw a blanket over him while the burglary was in progress.

A Big Sale of Stock and Land.

GAINESVILLE, Tex., March 2.
 A huge trade in cattle has just been completed. Luther B. Smith, late of Columbia, Missouri, now of Denver, Colorado, and Florence J. Hall of this city have purchased a half interest in the cattle ranch of Carnes & Forsythe Bro.'s Cattle Company, embracing 22,000 head of cattle and 60,000 acres of land. Consideration, \$300,000.

Riotous Laborers.

St. Louis, March 3.
 A gang of striking laborers at the iron ore dump below the city attacked the men who took their places with knives, clubs and other weapons, and a number of persons were hurt, none dangerously. A sheriff's posse will be on hand to preserve peace to-morrow.

Attempted Wife Murder.

FARGO, Texas, March 2.
 Peter Dakestrom, a farmer living 12 miles from town, attempted to kill his wife with a sledge to-day. Leaving her for dead he went and hanged himself. His wife will recover. Dakestrom was the richest farmer in this vicinity. No cause is known.

An Irrepressible Crank.

OTTAWA, March 2.
 Wiggins adheres to his prediction of storms on March 9 and 13, and says the storms will be as great as any that ever occurred on the earth or can possibly occur. He is positive a tidal wave will occur on the Bay of Bengal, the coast of Australia and Gulf of Mexico.

A Policy of Extermination.

LONDON, March 3.
 A letter from the Bishop of Rapore, County Donegal, is published, in which he says the only chance the destitute people have to maintain life is through charity. He says the policy of the Government is evidently one of extermination.

From the Northwest Coast.

VICTORIA, March 3.
 The steamer Eureka has arrived from the North. The McFarlane industrial home for Indian girls at Wrangell was burned on the 9th of February, accidentally. It is expected the society will replace the loss. During the 9th, 10th and 11th there was a severe wind storm. Houses were unroofed and blown down. Very little snow has fallen. The prospects are admirable for early work. There is almost a certainty of a large immigration in the Spring and Summer. Great expectations with regard to recent discoveries of gold in Delare district are indulged in.
